- 2.7.2 Recurring monthly charges may be invoiced one month in advance. Invoicing cycles are approximately thirty (30) days in length, and payment is due upon receipt. **SECTION 3 -DESCRIPTION OF SERVICE****3.1 Timing of Calls**

- 3.1.1 The Customer's monthly usage charges for service are based upon the total number of minutes the Customer uses and the service options to which the Customer subscribes. Chargeable time begins at the time the called party answers (*i.e.* when two-way communications is possible), and ends when either party hangs up.
- 3.1.2 No charges apply if a Call is not completed.
- 3.1.3 For billing purposes, all Calls are rounded up to the nearest minute and billed in increments of one minute. The minimum call duration is one (1) minute for a connected call.
- 3.1.4 Where applicable, charges will be rounded up to the nearest penny.
- 3.1.5 Usage begins when the called party picks up the receiver (*i.e.* when two-way communication is possible). A Call is terminated when the calling or called party hangs up. The Company utilizes software answer supervision, which permits up to sixty (60) seconds of ringing before the Call becomes billed usage. Where answer supervision is not available, any Call for which the duration exceeds sixty (60) seconds shall be presumed to have been answered and becomes billed usage.
- 3.1.6 The Company will not knowingly charge for Incomplete Calls. Upon the Customer's request and proper verification, the Company shall promptly adjust or credit the Customer's account for charges or payments for any unanswered call inadvertently billed due to the unavailability of Feature Group D or due to another company's failure to provide answer supervision. Upon the Customer's request and proper verification, the Company also shall promptly adjust or credit the Customer's account for charges or payments for Calls placed to a wrong number.

**3.2 Start of Billing**

For billing purposes, the start of service is the day following acceptance by the Customer of the Company's service or equipment, or another date mutually agreed-upon by the Customer and the Company. The end of service date is the last day of the minimum notification of cancellation or any portion of the last day, after receipt by the Company of notification of cancellation, or another date mutually agreed upon by the Customer and the Company.

**SECTION 3 - DESCRIPTION OF SERVICE (Cont'd.)****3.3 Calculation of Distance**

3.3.1 Where applicable, usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call.

3.3.2 Where applicable, the airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. The Company uses the rate centers that are produced by Bell Communications Research in their NPA-NXX V&H Coordinates Tape and Bell's NECA Tariff No. 4.

A. The airline distance between any two (2) rate centers is determined as follows:

B. Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the above-referenced document.

1. Compute the difference between the "V" coordinates of the two (2) rate centers; and the difference between the two (2) "H" coordinates ( $X1-X2 = V$ ;  $Y1-Y2 = H$ ).
2. Square each difference obtained in step 3.3.2.B.1 above ( $V^2$ ;  $H^2$ ).
3. Add the square of the "V" difference and the square of the "H" difference obtained in step 3.3.2.B.2 above ( $V^2 + H^2 = S$ ).
4. Divide the sum of the squares by 10 ( $S/10 = M$ ).
5. Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

**3.4 Minimum Call Completion Rate**

The Customer may expect a Call completion rate of at least ninety percent (90%) of dialed, local interoffice calls attempted during peak use periods or the busy hour.

**SECTION 3 - DESCRIPTION OF SERVICE (Cont'd.)****3.7 Miscellaneous Service Charges****3.7.1 Service Order and Change Charges**

Service Order Charges apply for changes in service and for additions to service. Service Order Charges are in addition to all other applicable nonrecurring charges identified in this price guide.

**3.7.2 Bad Check Charge**

If payment for Service is made by a check, draft, or similar instrument (collectively "Check") that is returned to the Company unpaid by a bank or another financial institution for any reason, the Company will bill the Customer a returned check charge. In addition, the Customer may be required to replace the returned Check with a payment in cash or equivalent to cash, such as cashier's check, certified check or money order.

Where service to a Customer is disconnected due to reasons of non-payment and payment has not been received or satisfactory payment arrangements have not been made for a period of ten (10) calendar days, the Company may consider the service terminated. **SECTION 3 - DESCRIPTION OF SERVICE (Cont'd.)****3.7 Miscellaneous Service Charges (Cont'd.)****3.7.4 Maintenance Charges**

Maintenance Visit Charges apply when the Company dispatches personnel to a Customer's premises to perform work necessary for installing new service, effecting changes in service or resolving troubles reported by the Customer when the trouble is found to be caused by the Customer's facilities.

The time period for which the Maintenance Visit Charges is applied will commence when Company personnel are dispatched at the Customer premises and end when work is completed. The rates for Maintenance of Service, therefore, vary by time per Customer request.

**3.7.5 Non-routine Installation**

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in unusual locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply.
