

FUSION QUICK FACTS

- Experienced Cloud Solutions Provider
- Flexible, Integrated Product Portfolio
- Certified, Interoperable SIP Trunking Solutions
- Robust, Fully Diverse and Redundant National Network
- Award-winning Cloud Solutions that Work for Your Business

Call 888.474.4968 and let us help you take your first step toward the Fusion Cloud!

The Single Source for the Cloud

Fusion delivers a comprehensive suite of innovative, yet proven cloud solutions to businesses of all sizes. Our advanced, proprietary solutions platform enables the integration of leading edge solutions in the cloud, including cloud communications, cloud connectivity, cloud computing and additional applications in the cloud such as storage, security, and business continuity. Fusion's cloud solutions reduce our customers' cost of ownership, and deliver new levels of flexibility, scalability and speed of deployment.

Cloud Communications and Connectivity

Fusion's robust nationwide network delivers diverse connections to the cloud. From Fusion360 and FusionWorks to Contact360 and FusionSIP solutions, Fusion helps you communicate, connect and collaborate faster, easier and more cost-effectively. Our Managed Network solutions converge voice and data requirements to optimize business communications. Count on Fusion to meet your growing connectivity, Internet access and data requirements with bandwidth solutions ranging from T-1 to 100 Gbps, and integrated network solutions ranging from Ethernet to MPLS.

Cloud Computing

Fusion's fully integrated and comprehensive cloud computing solutions drive efficiencies in hardware, software, network, management, maintenance and support, driving down costs as they enable customers to plan on the basis of resources required, not individual servers or other hardware. Fusion's suite of cloud computing solutions, including private/hybrid cloud, storage, backup and recovery, and secure file transfer, are managed in our cloud, saving you space, time, money and resources.

Carrier Services

Fusion provides voice solutions to carriers worldwide, transporting approximately 750 million minutes of voice traffic per year. We are contracted with over 270 carriers worldwide. We give our carrier partners the ability to provide corporations global product offerings like international private networks, broadband internet access and VPNs. Our world class customer base gives us a distinct advantage over most cloud communications providers.

Company Overview

Expertise and Experience

Fusion's team of communications professionals have decades of experience in designing, developing and engineering simple solutions to complex communications problems. We aim to be our customers' single source for the cloud, and are committed to keeping our customers connected with award-winning, integrated cloud solutions that future-proof their technology investments and deliver built-in business continuity. Our advanced technology solutions ensure that our customers are on the leading edge, allowing them to focus on their business while we focus on the technology that will help drive their success.

The Fusion Advantage

Fusion's cloud solutions allow you to leapfrog legacy infrastructures, lowering capital requirements and providing real time to market advantages. Fusion cloud communications advance your business with enhanced features and functionality that increase productivity and agility, and reduce costs. Our advanced voice-optimized national network connects you securely to the cloud, ensuring the highest standards of quality at significantly lower cost. With flexible, scalable, reliable and secure solutions, Fusion gives you the agility you need to succeed in today's demanding business environment.

Advancing our Customers' Success

At Fusion, we understand that every business needs to work smarter, save money and stay flexible. To advance our customers' success, we offer cloud solutions that enable our customers to connect, communicate, collaborate and compete faster, better and more efficiently than ever before. Companies require scalable, future-proof solutions with advanced functionality to maximize productivity and support mobility. In a constantly changing environment, Fusion can be relied upon to help businesses compete and stay ahead of the curve.
