

## FEATURES & BENEFITS

### SECURE

Cloud-based firewall: no Internet gateways or firewalls needed on site, no multiple points of entry.

### FUTURE-PROOF

Protect your investments with cloud communications and network services.

### SCALABLE

Add services, business locations, contact centers, usage bundles, and applications to your Fusion Voice solution as your business evolves.

## Trusted Cloud Solutions for the Financial Services Industry

### Why Fusion for Financial Services Companies?

Our solutions for the financial sector are specifically designed to support the communications infrastructure and collaboration needs within your organization, in a secure and compliant fashion.

Fusion's cloud network, voice and unified communications solutions help financial service providers streamline their business operations, improving productivity, time management and increasing customer satisfaction. With full knowledge of financial industry governance, risk management and compliance rules, Fusion can help you confidently conduct business with low network latency and a robust, resilient, secure communications infrastructure.

### Fusion Cloud Solution Benefits

- A resilient, secure nation-wide network with 'always on' availability.
- Multiple connectivity options to ensure that from the edge to the core, your voice and data communications are always on.
- Protect client and firm data from outside threats with comprehensive network security solutions.

### Be Connected: Anytime, Anywhere Always

- Built-in business continuity ensures that in the event of a power failure or disaster, calls can be re-directed to a cell phone or any phone number of your choice.
- Physical redundancy is combined with our network-based intelligent routing solutions to deliver a reliable, fully automated failover solution.

*“Fusion’s cloud communications solution has been invaluable in our pursuit of customer service excellence.”*

- Reed Hofmann, CISSP, CISA,  
Vice President Ascensus;  
Information Technology

### Work Smarter

- Mobility solutions for remote or home employees, with a phone system that follows you no matter where you are or what device you prefer.
- Keep your staff in touch with each other without expensive IT integration. The convenience of the Fusion Communicator brings secure Instant Messaging that doesn't require any costly integration with 3rd party applications.
- Provide flexible off-site voicemail storage, or deliver all voicemails as email.
- Fusion-provided or private call recording storage, for extra security and compliance.

### Fusion Cloud Solutions

- FusionWorks: Powerful communications with the integration of voicemail, web collaboration, video, instant messaging and presence, fax and phone service.
- Fusion Cloud Security: Managed firewalls to Stealth Cybersecurity.
- Fusion Contact360: Call recording, real-time monitoring and reporting capabilities are built into the complete solution, increasing productivity.
- Fusion Cloud Connectivity: from T1 to GigEthernet, dedicated circuits or MPLS mesh networks.
