

INTRODUCING Fusion360 Preferred

Fusion is the Single Source Solution Provider and now we've created the **perfect bundle!** Get your phone and usage all on **one simple bill.**

Why Choose Fusion and Polycom?

- Fusion provides the easiest and most cost effective way to deliver optimal communications solutions to your business, increasing productivity across the enterprise while reducing costs.
- Fusion provides you the stability of a traditional telephone PBX system and advanced features that only a next generation, cloud-based solution can offer. Our service package is designed to provide simplicity in decision-making process without sacrificing on the features your business needs.
- The Polycom® VVX® 401 is an expandable color business media phone that delivers clear communications, enhanced collaboration and personal productivity. It is equipped to handle any volume of calls through advanced unified communications (UC) telephony features. The intuitive color user interface makes navigation easy and requires minimal training. This model includes a single USB port (2.0 compliant) for media and storage applications.
