

Fusion Contact Center Enterprise Services Addendum

The additional terms and conditions set forth in this Fusion Contact Center Services Addendum (the “**Contact Center Enterprise Services Addendum**”) apply to Fusion’s provision of Contact Center Pro Plus and Contact Center Advanced Services (the “**Services**” or “**Contact Center Enterprise Services**”) and supplement the terms and conditions set forth in the Master Services Agreement (the “**MSA**”) executed by Customer with Fusion or the Basic Terms and Conditions (the “**Basic Terms and Conditions**”) incorporated by reference into the Service Order signed by Customer with Fusion for the purchase of the Services. This Contact Center Enterprise Services Addendum, together with the MSA or Basic Terms and Conditions, as applicable, and the Service Order are herein collectively referred to as the “**Agreement**”. For purposes of this Contact Center Enterprise Services Addendum, “**Fusion**” means the subsidiary of Fusion Connect, Inc., a Delaware corporation, that provides the Services in the applicable state to Customer. Capitalized terms used in this Contact Center Enterprise Services Addendum and not otherwise defined herein have the meaning given each such term in the MSA or Basic Terms and Conditions, as applicable.

1. Service Description. Fusion’s Contact Center Enterprise Services provide an end-to-end cloud contact center solution incorporating customer and workforce engagement, employee collaboration, as well as analytics and insight on a single unified platform. The Services provide a cloud-based platform that customers can use to cost-effectively operate a highly-reliable feature rich contact center from anywhere. A description of the features and Service options are set forth below.

(a) **Contact Center Pro Plus.** Fusion’s Contact Center Pro Plus Service includes:

- i) Automatic Contact Distribution allowing Customer to route inbound calls to agents based on caller data, interactive voice response selection, attributes or business hours;
- ii) Interactive Voice Response permitting Customer to simply and efficiently implement call flows without the need for coding;
- iii) Advanced Calling Features such as call and device routing, call transfers, auto transfer, voicemail, voicemail with transcription, activity logging, contact display, and call quality feedback;
- iv) Dashboards providing Customer real-time, live views of agent performance against Customer’s key metrics and service levels;

- v) Mobile Agents allowing Customer’s agents and reps to handle inbound and outbound calls anytime, anywhere, giving flexibility with after-hours or part-time staffing options; and
- vi) Administrative Capabilities for number provisioning, role-based user permissions and user management, ring group management, and call recording.

(b) **Contact Center Advanced.** Fusion’s Contact Center Advanced Service includes all the features of the Fusion Contact Center Pro Plus Service along with custom reporting, dashboard creation and access to all available APIs.

In order to utilize the Contact Center Pro Plus or the Contact Center Advanced Services, Customer is required to purchase all license types for each end-user of the Services.

(c) **Add-ons.** The Contact Center Enterprise Services also have available add-ons which can be purchased separately. These add-ons include:

- i) Omnichannel which permits callers to select how they want to communicate;
- ii) Over sixty (60) integrations including Salesforce and Microsoft Teams;
- iii) Workforce Management to optimize staffing and automate scheduling;
- iv) Quality Management to improve agent performance;

- v) Screen Recording which provides a complete picture of caller interactions;
- vi) Guides for artificial intelligence powered self-service;
- vii) Speech Analytics for transcriptions of caller interactions;
- viii) Predictive Dialer for outbound capabilities;
- ix) Salesforce Dialer for dialing directly from within Salesforce; and
- x) Access to AppConnect with over 80 partners.

2. Use of the Service. Customer agrees not to use the Services for malicious purposes. Customer and its end-users are the only parties authorized to access the Services. Customer is responsible for any unauthorized use of the Services.

3. Activation and Installation. The Services require remote professional installation by Fusion or Fusion’s underlying service provider. Service installation will be provided pursuant to a separate statement of work (“**SOW**”). Remote professional installation is also required when purchasing Service add-ons but may not be necessary for expansion of existing Services. For example, if Customer is adding new agents, professional services are not required, but, if Customer is adding new features such as Workforce Management, then professional services would be required. Customer shall pay for the setup fee and professional installation of the Services on a time and material basis as set forth in the Fusion Fees and Surcharges Guide unless otherwise stated in the applicable SOW. During the scoping process, the parties will agree upon an “**Activation Date**” for the Services. On the Activation Date, Customer’s account will be created, licenses will be activated, and monthly billing will commence. Following the Activation Date, additional professional services, training, and Service configuration may be required before Customer or end-users are able to fully utilize the Services.

4. Customer Responsibilities. Customer shall cooperate with Fusion and Fusion’s underlying providers, including providing complete and accurate information, throughout the scoping and installation process, and Customer understands that

incorrect or incomplete information may cause Customer to incur additional costs and fees. If applicable, prior to activation of the Services, Customer will be responsible for obtaining local permits, landlord consents, waivers, zoning exceptions and other permissions as required by local law.

5. Technical and Administrative Support. Support for the Service is provided at the Tier 2 level, with the Customer’s support organization providing Tier 1 support directly to its end-users. Customer must open all trouble tickets on behalf of its end-users; however, if necessary, Fusion will communicate directly with the end-user to resolve issues. Fusion support is available 24x7x365 to help Customer resolve Service-related issues, and during regular business hours to address administrative issues. If additional support is required, Fusion will open a ticket with our underlying carrier for additional support.

6. Training The training needed to fully utilize the Services is dependent to Customer’s specific Contact Center Enterprise Service configuration and will be detailed in the applicable SOW for the Services. During the professional services engagement, the Customer will be allotted a defined number of hours based on the upfront sales process and the goals of the Customer. Once the professional service engagement begins, Customer will complete discovery calls with Fusion or its underlying providers in order to gather information on Customer’s preferred Service configuration. Thereafter, Customer will be trained on how to use the Service as well as how to make future changes.

7. Incompatibility with Other Services. In the event that Customer uses the Services (i) in combination with any service not provided by Fusion, (ii) with any other software and/or service provided by Customer or any source other than Fusion, which may be installed to integrate with the Services, including but not limited to Internet access, voice services (local, long distance, or toll) or any IP solutions (VoIP telephone system, etc.), (iii) with any other service platform that is not connected to a Fusion provided access facility, or (iv) any Fusion provided equipment used in

combination with any Internet connection not provided by Fusion, Customer agrees as follows:

(a) Fusion will not be liable or responsible for any integration, installation, testing, troubleshooting, repair, support or maintenance regarding any Customer provided equipment used in connection with the Services; and

(b) Fusion will not be liable or responsible for quality of Service issues or Service degradation resulting from Customer's equipment and the Service Level Agreement set forth herein shall not apply.

In addition, the Services may not be compatible with existing network security configurations and may require changes by Customer to enable one or more of the Services to function properly.

8. Term. Each Service is subject to a minimum Service Term starting from the Service activation date. The Service Term is set forth in the applicable Service Order. The applicable monthly recurring charges ("**MRC**") shown in the Service Order shall apply to each Service installed for Customer. The Initial Service Term and each Renewal Service Term for Contact Center Enterprise Services shall automatically renew for additional Terms of one (1) year, unless Customer provides written notice of termination to Fusion at least sixty (60) days prior to the end of the then-current Term. Removal of automatic renewal shall not be permitted for Contact Center Enterprise Services. If a Service is disconnected or terminated prior to the end of the then-current Term, by Fusion due to a breach of the Agreement, or by Customer for any reason, then Customer agrees to pay an Early Termination Fee equal to the monthly recurring charge for the Service multiplied by the number of months remaining in the then-current Term.

9. License Usage. The number of licenses for the Services ordered in the applicable Service Order will be the minimum license quantity ("**Minimum License Quantity**") for the Services for the duration of the Term. The Minimum License Quantity includes not only the core licenses for the Services, but also any add-on licenses selected by Customer (e.g., Workforce Management, Quality Management, etc.). Customer may increase the quantity of licenses at any time, which will be prorated for the billing cycle in which such licenses are ordered. Customer may also decrease the quantity of licenses by providing at least thirty (30) days' written notice to Fusion so long as the number of licenses does not drop below the Minimum License Quantity. Customer may only decrease the Minimum License Quantity by giving at least forty-five (45) days' written notice to Fusion before the end of the then-current Term. If Customer requests cancellation of licenses mid-month, the licenses will be terminated at the end of the month and Customer will be billed for the full month. No proration applies to terminated licenses during the Term.

10. Export Control. The Services may be subject to certain export laws and regulations. Customer will not and will not permit any end-user to access or use the Services in a U.S. embargoed country (currently Cuba, Iran, North Korea, Sudan or Syria) or in violation of any U.S. export law or regulation and will ensure that the Services and equipment will not be exported, directly or indirectly, in violation of any export laws or regulations, or used for any purpose prohibited by such export laws or regulations.

11. Service Level Agreement. The Services are provided on a best-efforts basis and no Service Level Agreement applies
