MegaPath Product Naming Updates

As one of the final steps in our rebranding effort, the MegaPath Hosted Voice and Unified Communications products are transitioning to the Fusion brand. As a result, some product and feature names were updated in the Fusion customer portal on June 14, 2019. Similarly, some product and feature name changes will take effect on your invoice beginning August 1, 2019, where applicable. Please rest assured these are branding changes only and there is no impact to product functionality or pricing.

For a complete list of product naming changes, please refer to the list below.
