4.12.2 Dispute Resolution

This Section applies to any dispute, controversy, or claim, whether based in contract, tort, equity, statute or any other legal theory, between the Customer and the Company arising out of, or relating to, any service, product, facilities, charge, advertising, representation, act or omission of the Company, or any other dispute, controversy, or claim arising from the relationship between the parties that either the Customer or the Company has against the other, regardless of the date of accrual and even if the dispute, controversy, or claim arises after service has terminated (hereinafter collectively referred to herein as "Dispute" or "Disputes"). All Disputes must be resolved as described in this section. 4.12 Disputes

(N)

4.12.2 Dispute Resolution

If the Customer has a Dispute with the Company, the Customer must first call the Company's Customer Service department, at the number listed on the Customer's invoice, to attempt to resolve the Dispute. The Customer must describe the Dispute and provide the Company with any supporting documentation reasonably requested by the Company. Likewise, if the Company has a Dispute with the Customer it will notify the Customer by letter sent to the Customer's billing address and attempt to resolve it before pursuing arbitration.

If the parties are unable to resolve the Dispute within 60 days of the initial notice, either party may request arbitration as described below.

**MANDATORY ARBITRATION OF DISPUTES. ANY DISPUTE OF ANY KIND BETWEEN THE CUSTOMER AND THE COMPANY, OR ANY EMPLOYEE, AGENT, PRIVY OR AFFILIATED ENTITY OF EITHER PARTY, WILL BE RESOLVED BY FINAL AND BINDING ARBITRATION AS PRESCRIBED IN THIS SECTION. THE FEDERAL ARBITRATION ACT, NOT STATE LAW, GOVERNS THIS PROCESS, INCLUDING THE ARBITRABILITY OF ANY DISPUTE UNDER THIS TARIFF AND THE REVIEW OF ANY AWARD.**

The arbitration will be conducted by and under the then-applicable commercial arbitration rules of the American Arbitration Association ("AAA") at the nearest AAA Case Management Center or other location as agreed upon by Customer and Company. A single neutral arbitrator engaged in the practice of law will conduct the arbitration. The arbitrator will be selected according to the rules of the American Arbitration Association or, alternatively, may be selected by agreement of the parties, who will cooperate in good faith to select the arbitrator. All expedited procedures prescribed by the applicable rules will apply. All required fees and costs will be paid equally by the parties as set forth in the AAA commercial arbitration rules. The arbitrator's decision and award will be final and binding, and judgment on the award rendered by the arbitrator may be entered in any court with jurisdiction.

No Dispute may be joined with another lawsuit, claim, dispute, or arbitration brought by any other person, or resolved on a class-wide basis. The arbitrator may not award damages that are barred by this tariff and may not award punitive damages.

If any party files a judicial or administrative action to resolve a Dispute without first complying with the provisions of this Section and another party successfully stays such action and/or compels arbitration, the party filing that judicial or administrative action must pay the other party's costs and expenses incurred in seeking such stay and/or compelling arbitration, including attorney's fees.

Notwithstanding the provisions of this Section, the Customer may file a complaint with the Commission as described in Section 2.9.

If any portion of this Section is determined to be invalid or unenforceable, the remainder of this Section and this Tariff shall remain in full force and effect.

## 5.4.10. Birch Price Protection Plan (1)

(T)

- A. Birch offers optional discounts for Customers that agree to a term commitment of 12 or 24 months. Customer is eligible for Price Protection Plan ("PPP") term pricing only where Customer has a minimum of three Birch Basic Business Lines and/or Trunks, as defined in Birch's P.S.C. MO No. 1 Tariff, within an account. The 24-month commitment also qualifies Customers for a Local Exchange Service discount as provided in Birch's P.S.C. MO No. 1 Tariff.
- B. Customers subscribing to the PPP must commit to a written term service agreement in a form designated by Birch, which shall include, without limitation, Customer's term selection.
- C. The term will commence on the billing date for the first new line or the first billing date after Customer executes a term service agreement if the service is currently being provided to Customer.
- D. All rules, regulations, fees, charges, taxes and surcharges normally applicable to Birch Basic Business Line and Trunk services shall apply. Any charges in any proposal or quotation are exclusive of taxes and surcharges. Term pricing may not be combined with any other offer.
- E. If monthly term rates as specified in this Section decrease during the term period, Customer may elect to obtain the new rates by executing a new term service agreement with the new rates, with a new term commencement date, and an agreement to the same or greater commitment term period.
- F. For Customers who establish a term service agreement, monthly Birch Basic Business and Trunks rates will not change as a result of a Birch-initiated increase; however, if a Local Exchange Rate Group Reclassification occurs, as set forth in this Tariff, an adjustment for the remaining term of the term service agreement will be made.
- G. If Customer disconnects Services or otherwise terminates its term service agreement prior to the end of the current term for any reason except for a failure by Birch to meet the terms of the Term Customer Service Level Objectives specified below, Customer agrees on the next monthly invoice to pay a termination charge as liquidated damages and not as a penalty, equal to the greater of:
  - 1. \$50.00 per terminated line, or
  - 2. \$10.00 per terminated line multiplied by the number of months remaining in the current term.
- H. Customer may add or terminate new voice lines without termination liability, provided that Customer maintains service to its primary billed telephone number for the remainder of the term commitment and remits payment for any applicable charges, surcharges and fees.
- I. The following Service Level Objectives apply to the PPP only, and are subject to all other provisions of this Tariff, including specifically but without limitation, any and all limitations of liability. Birch will use commercially reasonable efforts to provide Services in accordance with the following Service Level Objectives:

TeraFon encompasses several pricing options with varying Minimum Monthly Revenue Commitments ("MMRC") that reflect common spending patterns of the business customer. International, interstate, intrastate and calling card calls contribute to the calculation of gross monthly usage associated with the corresponding MMRC. Directory assistance and operator service charges do not apply to the calculation of gross monthly usage.

The MMRC is applied to a single access type (switched or dedicated). The MMRC may be applicable to a single service type (outbound, inbound or travel) or to a combination of the three service types (outbound, inbound and travel). An account with inbound, outbound and travel service, utilizing the same access type, will only have one MMRC.

Each TeraFon account will benefit from a 90-day ramp-up period in which to accrue sufficient usage to meet the corresponding MMRCs. Once the ramp-up period has expired, customers billing less than the product MMRC will automatically be assessed a fee equivalent to the difference between actual gross usage and the pre-determined MMRC amount. Several TeraFon service options contain term plan agreements. Customers terminating service prior to the expiration date of their term plan agreement will be assessed the MMRC for the months remaining in the term plan agreement. The termination liability will be billed in one lump sum and payment is required within thirty (30) days of cancellation.

- D. Minimum Call Completion Rate: The Primus network is designed to insure that no more than 5% of all calls are blocked during the busy hour of the average business day. The network circuits are designed and engineered to provide high quality transmission of the human voice with a minimum level of impairment such as noise and echo. However, overall quality may vary somewhat due to the variability in quality of connections provided by the local telephone companies or the transmission facilities of underlying carriers, which are beyond Primus' control.

E. Timing of Calls:

- (1) On direct dialed outbound and inbound calls provided pursuant to this tariff chargeable call duration accrues from the time the called party answers, as indicated by Carrier's receipt of answer supervision, until one of the parties hangs up, as detected by Carrier's equipment.
- (2) Carrier may receive answer supervision signaling directly from local exchange carriers, may employ software answer supervision, or may receive answer supervision from other interexchange carriers. These other interexchange carriers may themselves employ either local exchange carrier-provided answer supervision or some other method of determining called party on-hook or off-hook status.
- (3) Call duration recording of Conference Calling and Operator Service calls does not necessarily employ answer supervision on every call. Toll Free Service calls terminating on a Customer's PBX or comparable Customer premises equipment will be timed commencing when Carrier receives answer supervision from such communications system.
