

Technology Solutions for Non-Profits

Extend Your Budget with Cost-Saving Cloud Solutions

Fusion Connect's affordable and reliable cloud-based communications and connectivity services help non-profits save on monthly technology costs, allowing you to reinvest the savings back into your programs so you can concentrate on your organization's mission.

Office Phone Systems

Advanced call forwarding features and visual voicemail transcribed as email support your non-profit's mobile workforce.

Secure Networking

Simplify network management. Use bandwidth more efficiently to reduce access costs without sacrificing application performance.

Managed WiFi

Deploy a private LAN for employees and public WiFi for volunteers and guests. We'll manage it for you.

Unified Communications

Staff and volunteers can collaborate quickly via chat, audio and video conferencing, and more with an easy-to-use tool that works across devices.

Microsoft Productivity Tools

Provide office staff with Office 365 productivity tools while safeguarding business data and assets across devices.

High-Speed Internet

Choose from affordable, high-speed access technologies, available nationwide. Connect staff and power guest WiFi, point-of-sale, streaming video and more.
