

How to set up Microsoft Exchange email on an Android device

1. On the Smart Phone device, look for and select **Settings – Accounts and Sync – Add Account**.
2. Choose any of these you may find (depending on the device, the choices will differ): **Corporate** or **Microsoft Exchange** or **Active Sync**.
3. Type your full email address, for example tony@contoso.com, and your password, and then click on **Next**.

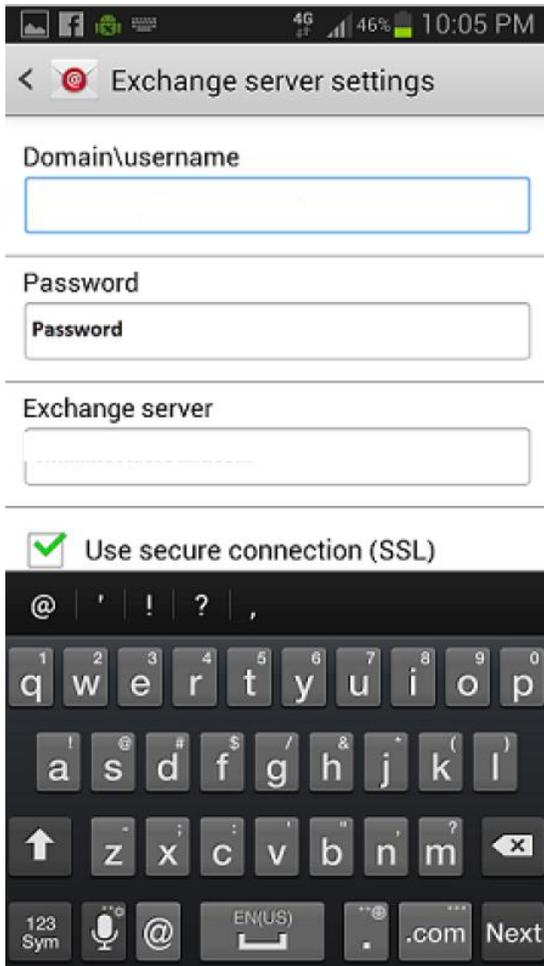

NOTE: If the account does not automatically configure, you will need to select [Manual setup].

The next Exchange configuration screen displays

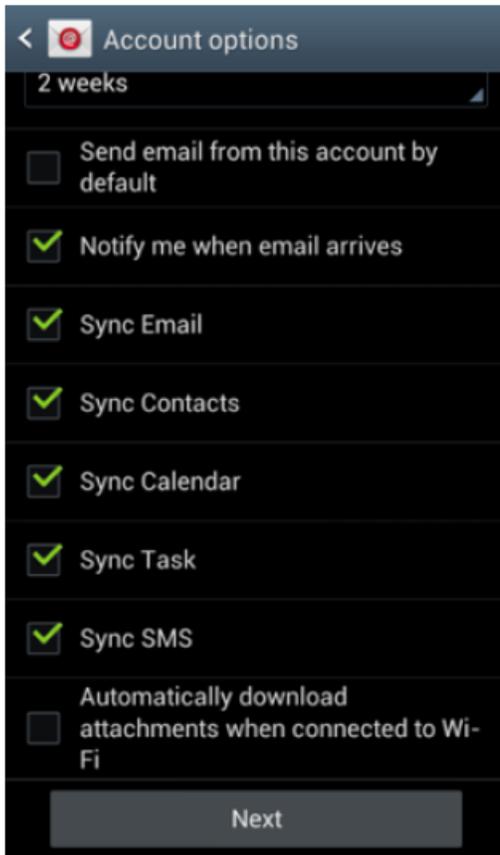

4. For the **Domain\Username** you will need to type your full email address in this box. If **Domain** and **Username** are separate text boxes in your version of Android, leave the **Domain** box empty and type your full email address in the **Username** box.

5. Type in your **Password**: Use the password that you use to access your account.
6. Type in the **Exchange Server**: Use **mail.h02.fusionemail.net** for your server name
7. Put a **check** in the use **SSL** box if it is available
8. **Click** on **Next**

As soon as your phone verifies the server settings, the **Account Options** screen displays. The options available depend on the version of Android on your device. The options may include the following:

Email checking frequency

The default value is Automatic (push). When you select this option, email messages will be sent to your phone as they arrive. We recommend only selecting this option if you have an unlimited data plan.

Amount to synchronize

This is the amount of mail you want to keep on your mobile phone. You can choose from several length options, including One day, Three days, and One week.

Notify me when email arrives

If you select this option, your mobile phone will notify you when you receive a new email message.

Sync contacts from this account

If you select this option, your contacts will be synchronized between your phone and your account.

9. Select **Next** and then type a name for this account and the name you want displayed when you send e-mail to others. Select **Done** to complete the email setup and start using your account.

NOTE: You may need to wait ten-to-fifteen minutes after you set up your account before you can send or receive e-mail.
