LOCAL SERVICES PRICE GUIDE

APPLICABILITY OF PRICE GUIDE

This price guide contains the regulations and charges applicable to intrastate resale common carrier communications service provided by the Company between points within the State of Oklahoma. Operator assisted services are furnished subject to the availability of facilities and subject to the terms and conditions of this price guide.

This price guide applies to direct-dialed and operator-assisted intercity communications services only.

The telecommunications services of the Company are not part of a joint undertaking with any other entity providing telecommunications channels, facilities or services, but do involve the resale of the Message Toll Services (MTS) and Wide Area Telecommunications Services (WATS) of underlying common carriers subject to the jurisdiction of this Commission.

The rates and regulations contained in this price guide apply only to the services furnished by the Company and do not apply, unless otherwise specified, to the lines, facilities, or services provided by a local exchange telephone company or other common carrier for use in accessing the services of the Company.

The subscriber is entitled to limit the use of the Company's services by users at the subscriber's facilities, and may use other common carriers in addition to or in lieu of the Company for operator assisted services, including without limitation offering users the ability to access the carrier of the user's own choice.

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

The following terms, whether or not capitalized in this Price Guide, shall have the meanings set forth below:

900 Call Restriction – Allows customers to restrict 900 prefix outgoing calls from being placed over their exchange access lines.

Auto Redial – Enables the customer to automatically redial the last outgoing telephone number. When the telephone number is busy, the Company's equipment will keep trying to call the number being redialed for a maximum of 30 minutes.

Anonymous Call Rejection (ACR) – Allows customers to automatically reject calls that have been marked anonymous by the calling party. When ACR is active, the called party receives no alerting (ringing) for a call that has been rejected. The call is routed to a denial announcement and subsequently terminated.

Business – When used in relation to service, means service provided in offices, stores, factories and all other places for business use.

Call Blocker – Enables the customer to block calls from preselected telephone numbers and/or the last incoming call (without knowing the number). To block specified telephone numbers, the customer builds a screening list. To block an unknown number after receiving a call, the customer enters a code to add the number to their screening list. If facilities are unavailable to provide incoming call screening via the customer's list, standard call completion will occur. Customers whose telephone numbers are blocked are directed to a Company recorded announcement.

Call Forwarding – Automatically routes incoming calls to a designated answering point selected by the subscriber, regardless of whether the user's station is idle or busy. The subscriber may change the designated answering point using the telephone key pad.

The results of the trace will not be provided to the Customer directly. SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.11 Service Connection and Facilities on Customer's Premises

The Company shall furnish and maintain all facilities including protective apparatus, to provide telecommunications service except as may be otherwise specified in this Price Guide. All facilities shall conform to the established construction standards of the Company.

Except as otherwise specified in this Price Guide, all equipment furnished by the Company in connection with a Customer's service shall be carefully used and only duly authorized employees of the Company or its contractors or agents shall be allowed to connect, disconnect, change or alter in any manner any or all such facilities.

Customer will be held responsible for loss of or damage to any facilities furnished by the Company unless such loss or damage is due to causes beyond the Customer's control.

At the termination of service the Company may remove any and all of its property located at the Customer Premises, as provided for in this Price Guide.

No equipment apparatus, circuit or device not furnished by the Company shall be attached to or connected with the facilities furnished by the Company, whether physically, by induction or otherwise, except as provided in this Price Guide. 2.13 Disputes

In the event of a dispute between a customer and the Company regarding any bill for telephone service, the Company shall make an investigation as required by the particular case, and report the results to the customer. In the event the dispute is not resolved, the Company shall inform the customer of the complaint procedures of the Commission.

Notwithstanding any other section of the Company's price guide, the customer's service shall not be subject to discontinuance for nonpayment of that portion of a bill under dispute pending the completion of the determination of the dispute. - A. Fusion offers optional discounts for Customers that agree to a term commitment of 24 months. Customer is eligible for Price Protection Plan (“PPP”) term pricing only where Customer has a minimum of three Basic Business Lines and/or Trunks within an account. The 24-month commitment also qualifies Customers for an Interexchange Service discount and a separate 12-month discount is also available for Interexchange Services as provided in Fusion’s Price Guide
 - B. Customers subscribing to the PPP must commit to a written term service agreement in a form designated by Fusion, which shall include, without limitation, Customer’s term selection.

- G. If Customer disconnects Services or otherwise terminates its term service agreement prior to the end of the current term for any reason except for a failure by to meet the terms of the Term Customer Service Level Objectives specified below, Customer agrees on the next monthly invoice to pay a termination charge as liquidated damages and not as a penalty, equal to the greater of:

If Customer continues to use Fusion service following any such notice of termination, Customer may continue to receive term pricing and pricing update notices.
 - K. A Service Level Objective failure shall be deemed to commence upon the opening of a trouble ticket with FNM, as requested by Customer, and shall be deemed to terminate upon the clearing of the same trouble ticket. DID Service is provided subject to the availability of facilities and may be furnished from the central office which regularly services the area in which the customer is located or from a foreign central office equipped to provide DID Service subject to the appropriate Company intra and interexchange rates. This service includes central office switching equipment necessary for in-dialing from the network directly to station lines associated with customer premises switching equipment. Where a Customer's first block of numbers consists of 100, a credit equivalent to the monthly rate for the first block of 10 numbers will be applied to Customer's account every month. The Office customer is responsible for any local usage or toll charges incurred between the customer's Office number and the terminating number.

The Office number includes one path, which allows for one call to be forwarded at a time. Additional paths can be ordered to allow additional calls to be forwarded simultaneously.

Office Service is available to business customers only.

Office Service is available in the following packages:

- Local Office Service
- Long Distance Office Service

4.5.4 National Directory Assistance

A. Service Description

National Directory Assistance (NDA) is a service whereby customers may request listing information for areas outside their LATA or home NPA. Requests for listings that are intraLATA or within the customers home NPA are billed under the current Directory Assistance plan as described in Section 4.5 of the Local Exchange Price Guide.

Callers access NDA by dialing 1+411 or 0+411. Only calls made for listings outside the customers' local directory assistance scope as defined above will be eligible for NDA.

B. Regulations

The regulations and rates set forth below apply to all calls from customers who request assistance in determining telephone number information of national subscribers as defined above. The customer will be charged for each listing request made during the call. The NDA rate applies per listing request whether or not a number is provided including requests for numbers which are non-published, non-listed or not found. There are no allowances associated with NDA.

There are no exemptions from billing for requests for NDA.

C. Rates

Charge Per Listing Request	
Sent Paid Request	\$2.99
Alternately Billed Requests	\$2.99

D. Directory Assistance Charge Exemption

Directory Assistance Charge Exemption gives 50 Free (local, long distance, or combination of both) DA calls per billing cycle on each line where the end user has disabilities that prevent use of the telephone directory. Normal tariffs apply to DA calls for the 51st and all other additional calls within a billing cycle. For purposes of this rule, disability means, with respect to an individual, a physical or mental impairment that prohibits a customer from using the telephone directory.

A letter from the end-user's physician, clinic or appropriate group/agency verifying the disability, on the official letterhead of the physician, should be attached to the application. Access Integrated Networks will not be responsible for any charges incurred to obtain certification. In addition to the physician's letter, the customer will be required to complete Access's Directory Assistance Charge Exemption Application Form.

1. Description

- Customer Owned Pay Telephone (COPT) Service is a two-way, or, optionally, a one-way originating only business exchange access line composed of the serving central office line equipment, all outside plant facilities needed to connect the serving central office with the customer/subscriber premises, and the network interface. 900/976 call restriction are provided at no additional charge. 900/976 call restriction restricts calls to these pay-per-call information services to only those calls which are alternately billed.
- No person, business, government or entity of any type will be permitted to subscribe to COPT where such service is being used primarily for the purpose of placing directory assistance calls. If such COPT is installed and is subsequently discovered by the Telephone Company by whatever means, that such service is being used primarily for the purpose of placing directory assistance calls, such service will be disconnected after giving the customer a written 20-day notice of violation and disconnection. The Telephone Company further reserves the right to refuse to connect, or re-connect, such COPT at such premises in the future.
- The COPT customer shall sign an agreement to indemnify and hold Fusion Communications harmless from any and all loss, damage and expense occasioned by, or arising out of, claims for injury to persons or damage to property caused by, or contributed to, by the provision of detailed toll billing records to the COPT customer by mi communications, including but not limited to, any disclosure of said detailed toll billing records by the COPT customer. Detailed toll billing records include only toll calls billed by Fusion Communications. - At the customer's request, a primary listing will be provided at no charge in the local telephone directory for the exchange where the service is provided.
- The Company will not initiate a maintenance service call or take any other action in response to a trouble report on a COPT line until such time as requested by the pay telephone owner or its agent. The customer shall be responsible for the installation, operation and maintenance of the COPT used in connection with this service.
 - (a) The customer shall be responsible for the payment of Maintenance of service Charges, as provided for in Section 4.8.5.B of this Price Guide.  2. Customers who elect not to subscribe to Billed Number Screening, as described in paragraph A.1. preceding, will be fully responsible for all collect calls and third number billed calls which are billed to customer's exchange access line. 2. Call Screening and Services (Cont'd.)

B. Selective Class of Call Screening (SCOCS)

1. SCOCS is an optional service feature which may be provided where such facilities are available. It enables a customer, by means of a Company provided line screening code to restrict outgoing operator handled calls from a designated access line to only those calls which are charged to the called number (Collect), a third number or a Calling Card account.
 - SCOCS is only effective where (1) the Company carries the call, or (2) when the carrier (LEC, IXC, OSP) or other entities which carries the call recognizes the originating line screening which identifies the line as one that subscribes to SCOCS and only permits calls in conformity therewith.
 - However, if the customer subscribes to SCOCS, the customer will not be responsible for message charges incurred for calls placed in violation of the call screening restrictions. If a carrier for which the Telephone Company is the billing agent carries a call from a line subscribed to SCOCS, the Telephone Company will adjust such message when the customer brings the situation to the Telephone Company's attention. Such message charges will be charged back as uncollectible to the carrier.

B. Selective Class of Call Screening (SCOCS) (Cont'd.)

2. Originating line screening for a designated COPT access line can be arranged by providing one of the three following types of SCOCS.
 - (a) Type 1: Basic SCOCS - An outgoing call will not be permitted unless the end user makes arrangements to have the call billed to a called telephone number (Collect Call), a third telephone number, or a Calling Card account.
 - (b) Type 2: Collect Only-Inmate calls: Under this arrangement only an outgoing call billed to a called telephone number (Collect Call) is permitted.
 - (c) Type 3: Coinless Only SCOCS - An outgoing call will not be permitted unless the end user makes arrangements to have the call billed to a called telephone number (Collect Call), a third telephone number, or a Calling Card account.
 3. No variation, alteration or refashion of the screening codes, billing restrictions, applicable access or other general provision of SCOCS will be permitted.
 4. In those serving central offices where call screening is not available, the Company will not bill any call, including, but not limited to, third number billed, collect, "0" or "0+" calls to a number which has been clearly identified as a pay telephone to the Company-provided operator at the time of the call attempt. However, the Company will not be responsible for refunds of adjustment of charges for calls placed through other than Company-provided operators.

B. Selective Class of Call Screening (SCOCS) (Cont'd.)

5. All local calls and calls to Telephone Company numbers such as repair service, Directory Assistance Services and to public emergency numbers, such as 911, will be permitted from the COPT access line. However, these requirements may be waived when pay telephones are accessible to inmates in confinement facilities.
6. All Customers who elect not to subscribe to Selective Class of Call Screening, as described in this Section, will be fully responsible for all calls billed to customer's exchange access line. The Company shall have no responsibility to adjust any such charges and/or release customer from paying any such charges. Customer will hold the Company harmless from and against any liability or loss resulting from all calls billed to customer's exchange access line.

C. Central Office Call Blocking

1. Local and "1+" call blocking provides central office blocking of all local calls (7 digit) and direct dialed toll calls from coinless telephones. However, a uniform access code 950-XXXX assigned to a carrier for its international communications is not blocked but is routed to that carrier. The calls blocked include, but are not limited to 111+11, 1110XXX+111, "IOXXX+011", "IOIXYXX+I" and "IOIXXXX+011" type calls. This service is offered in serving offices where facilities exist.
 2. International Direct Dialed (IDD) call blocking is an optional service arrangement which provides central office blocking of direct dialed international calls ("011", "IOXXX+0 II" and 10 1 XXXX+O II") from coin operated telephones to telephone numbers outside the North American Dialing Plan. This service is offered in serving offices where facilities exist. Customers who elect not to subscribe to IDD call blocking shall be responsible for the payment of all charges associated with IDD calls and shall indemnify and hold Fusion Communications harmless from any and all loss and expense occasioned by fraudulent international calls which may be placed from the COPT access line.

3. Violation of Regulations

- A. If a COPT subscriber is in violation of a provision, the Company will notify the COPT subscriber of the violation in writing. Such notice must refer to the specific provisions being violated. The notice must state that the COPT subscriber is subject to disconnection by the Company for violation of the Price Guide unless the violation is corrected and the Company is notified, in writing, within 20 days of receipt of such notice that the violation has been corrected. The Company may disconnect service for violation of the Price Guide on or after the 20th day after receipt of the notice by the COPT subscriber, if the COPT subscriber did not notify the Company in writing within 20 days of receipt of the notice that the violation was corrected. However, if the COPT subscriber has filed a complaint with the commission regarding the disconnection and has provided the Company with a copy of the complaint that indicates that the complaint has been filed with the Commission's complaint office, within 20 days of receipt of the notice of violation the Company will not disconnect service pending resolution of the complaint by the Commission.
- B. Where a pay telephone is discovered to be connected to the network and is being billed under any Price Guide other than the COPT Price Guide, the Telephone Company will back-bill the difference between the COPT rate for 6 months, and the rate the customer actually paid, unless the customer can show that the pay telephone instrument was connected at a later date, in which case the back-billing shall run from the date of connection.
- C. If a customer fails to pay the amount back-billed, the Telephone Company shall suspend service on the COPT access line and on any other business service provided by the Telephone Company to the COPT customer, until such time as the back-billed amount is paid in full.

4.14 Remote Call Forwarding

1. Remote Call Forwarding (RCF) is a service whereby a call placed from a station (the originating station) to a customer's (the RCF customer) telephone number (call forwarding location) is automatically forwarded by Company central office equipment to another station designated by the RCF customer (terminating station).
2. Limitations
 - (a) Remote Call Forwarding service is offered subject to availability of suitable facilities.
 - (b) RCF is not offered where the terminating number is a coin or coinless pay telephone.
 - (c) The Company does not guarantee identification of the originating telephone number to the Remote Call Forwarding customer.
 - (d) Transmission quality may vary depending on the distance and routing necessary to complete a call. Since RCF service "tandems" two calls into one call, normal transmission quality is not assured for calls forwarded via RCF. Nonetheless, the resulting transmission performance will generally meet the RCF customer's voice-grade needs. Service arrangements which tandem more than two calls into one are more likely to result in unacceptable transmission quality; therefore, the Company will not knowingly forward calls via RCF to another telecommunications service arranged for permanent call forwarding. This policy can be administered only at the time RCF is ordered, and applies only in the forwarding direction. The services to which RCF calls are forwarded are provided independent of the RCF service and may not be within the Company's jurisdiction. Further, such services can be changed subsequent to the provision of an RCF service. Consequently, it is impractical to assure that such increased tandem forwarding never occurs. Where the Company is aware of such a service configuration, it reserves the right to modify such arrangements. Modifications may include, but are not limited to, changing the associated forwarded to number or termination of the RCF service. The RCF customer will be responsible for normal Price Guide

LOCAL SERVICES PRICE GUIDE

SECTION 4 – SERVICES (CONT'D.)

4.14 Remote Call Forwarding (Cont'd.)

- (e) Remote Call Forwarding is not suitable for satisfactory transmission of data.
 - (f) RCF is provided on the condition that the customer subscribe to sufficient RCF features and facilities to adequately handle calls to the RCF customer without interfering with or impairing any services offered by the Company. If in the opinion of the Company, additional Remote Call Forwarding features at the call forwarding location or facilities at the terminating station line are needed, the customer will, where appropriate, be required to subscribe to such additional RCF features and facilities. In the event the customer refuses to subscribe to such additional RCF features and facilities, said customer's RCF service shall be subject to termination.
 - (g) When the Call Forwarding number is to be located in a multi-office exchange, the Company will determine the serving central office.
 - (h) Remote Call Forwarding will be provided for local calling where the RCF telephone number and the terminating station are both located in the same exchange. Further, Remote Call Forwarding will be provided for local calling on an interexchange basis in those instances where the exchange serving the RCF telephone number and the exchange serving the terminating station have the identical local calling area within the same county, or are within an Extended Area Service arrangement as specified in this Price Guide. All other calls will be sent-paid (1+) only.
 - (i) Where a business directory listing is provided for the RCF number, calls will not be forwarded to a Company-provided telephone service for which residential rates apply.
 - (j) Where calls are to be forwarded to telephone service other than that of the RCF subscriber, it shall be the responsibility of the RCF subscriber to obtain permission for such forwarding from the subscriber to the other service and to determine a mutually acceptable number of access paths. Where the other subscriber contests such forwarding or the number of access paths, the Company reserves the right to modify the RCF service to the extent necessary to eliminate the other subscriber's complaint. The RCF subscriber shall be responsible for the Price Guided charges for any resulting rearrangement of the RCF service.

The respective charge for each such portion shall be as follows:

- Between the originating station and all forwarding locations.
